Welcome to Hope Christian School where we are “giving HOPE for the future”.

Hope Christian School is a faith-based, private school for children

with learning differences. Our students have the potential to succeed, but are challenged academically. Conventional school settings do not meet the needs of every student.

Hope Christian School offers small group instruction, remediation in reading, writing, and math skills. Our curriculum is individualized to meet the needs of each student by acknowledging their strengths, while addressing their weaknesses. Hope was founded on the principle that God has a design and purpose for every child. Our teachers strive to prepare these young people for a productive and rewarding life.

Hope Christian School

At Hope, we are blessed to have smaller classes. Our methods are comprised of direct stimulation, immediate feedback, modeling (or demonstrating) thought processes, and re-teaching.

Our Focus

Most importantly, on a daily basis, our faculty and staff pray. We pray for insight as to how to teach a new concept to our students. We pray for motivation and concentration for our students. We pray that God will give each student the desire to reach his or her full potential.

We focus on:

- Small group learning
- Low student/teacher ratio
- Multi-sensory learning
- Daily Bible study
- Numerous field trips
- English, Reading, Science, Social Studies, Math, PE, and much more
- High School students are offered basic studies and a college path

We offer recess and physical education as part of our students daily routine which allows our students to expend excess energy. This helps the student re-focus when returning to a classroom setting.

Our Mission

Hope Christian School was founded in 2007 as a private Christian school for students with learning disabilities and/or who struggle in a conventional classroom setting and mainstreaming in public schools.

Hope Christian School strives to develop each of our students to reach their highest spiritual, academic, and social potential.

Our success is measured by the smiles on our students faces and the joy our parents express as their child blossoms in our school.
